- Result:** Announced after about 3 weeks and published in assessmentQ
- Credits:** 20 based on the EU-ACME programme

Taking the exam: 2 options

Option 1: Individual

The candidate takes the exam from home or workplace and uses a computer with a webcam. The use of a 2nd device (smartphone) is required for full monitoring

Option 2: Group setting

The candidate takes the exam at a venue recruited by the society. The society organises live supervision. Each computer is equipped with a webcam. This option requires approval of the EBU.

Online invigilation

The invigilation is managed by ProctorExam.

Online invigilation is applicable for either option:

1. Individual
2. Group setting
