

Invitation

16th Masterclass Reconstructive Robotic Urology

Friday, August 21st, and Saturday, August 22nd, 2026
Kantonsspital Frauenfeld
Main Building, 2nd Floor, Söntis Lecture Hall

Introduction

An interactive, small-group course offering participants the opportunity to further develop their robotic surgical skills through live case observations and theory-based sessions enriched with video material. Learn from an international faculty composed of renowned surgeons from their respective fields, and engage in in-depth discussions on surgical techniques, the management of complex cases, and practical troubleshooting.

Course Directors

Prof. Dr. med. Thomas RW Herrmann

Kantonsspital Frauenfeld and Kantonsspital Münsterlingen, Switzerland

Prof. Dr. med. Hubert John

Kantonsspital Frauenfeld, Switzerland

Dr. med. Jan Klein

Kantonsspital Münsterlingen, Switzerland

Surgeons/Speakers

Prof. Dr. med. Hubert John

Kantonsspital Frauenfeld, Switzerland

Dr. Abhishek Singh

Muljibhai Patel Urological Hospital, Nadiad, India

Prof. Dr. med. Burkhard Ubrig

Augusta Klinik, Bochum, Germany

Prof. Peter Wiklund, MD PhD

Icahn School of Medicine, Mount Sinai Hospital, New York, USA

PD Dr. med. Jörn Witt

Urokompetenz Clinic Bel Etage, Düsseldorf, Germany

16TH Masterclass Reconstructive Robotic Urology

Friday

21st August 2026

Parallel live case observations

Simultaneous live cases will be conducted in two adjacent operating rooms, enabling participants to move freely between robotic procedures. The robotic system is equipped with a widescreen 3D monitor and auditorium projection for enhanced viewing. All procedures are subject to patient availability.

08.00 **Live case observations**

Reconstructive procedures of the upper and lower urinary tract

12.00 Lunch

13.00 **Live case observations - continued**

17.30 **Social event and dinner**

Saturday

22nd August 2026

Interactive theoretical sessions

The course includes theory-based sessions supported by additional video material, with participants encouraged to contribute their own surgical videos. Owing to the small group size, all sessions are deliberately informal, fostering open dialogue. Questions and free discussion are welcomed throughout the program.

09.00 **Patient Follow-up**

09.10 **Robot-assisted management of complex ureteral strictures (semi live)**

Abhishek Singh

09.35 **Robot-assisted YV-plasty**

Hubert John

10.00 **Intracorporeal urinary diversion: tips and tricks**

Peter Wiklund

10.30 Break

11.00 **Vesico-vaginal and entero-vesical fistulas**

Burkhard Ubrig

11.25 **Radical Prostatectomy: tips and tricks**

Jörn Witt

11.50 **Wrap-up**

Thomas RW Herrmann
